Speed Calling 8

Allows you to dial frequently used numbers faster

How to use:

Pick up handset and listen for dial tone.

Dial the appropriate one-digit access number (2-9). Push the # button.

To establish your speed call list:

Pick up handset and listen for dial tone.

Press 74*

When you get dial tone, dial the appropriate one-digit access number (2-9). Then dial the number you wish to speed code (for long distance entries, dial "1" and then the area code before the number)

Press *

Listen for confirmation tone to indicate your speed calling number is established. You may repeat this process for each number you wish to speed code, assigning each a different code number. Note, reusing an access number will replace the old phone number with then new number
